

# Intent, Implementation and Impact

## Intent

- Ensure a **coherent, well-sequenced maths curriculum** that builds fluency, reasoning, and problem-solving through mastery pedagogy.
- Align teaching with **national curriculum expectations** and mastery principles.
- Develop teachers' and children's confidence.

## Implementation

- Use **high-quality schemes** and adapt them for school context.
- Provide **CPD for staff** on mastery, manipulatives, and reasoning strategies.
- Monitor teaching through **lesson observations, book looks, and pupil voice**.
- Ensure **consistent use of concrete-pictorial-abstract (CPA) approach** across year groups.

## Impact

- Pupils show **secure understanding of concepts**, not just procedural knowledge.
- **Assessment data** shows progress and attainment in line with or above national expectations.
- Pupils demonstrate **confidence and enjoyment** in maths.
- Evidence from **work scrutiny and pupil voice** confirms
